PRESIDENT'S BARK

Hope Everyone is busy enjoying the Hunting Season!

This is the time of year when the dogs really come to life. Hearing their kennel doors slam as they see the light in the room over the garage go on. How do they know I'm going to the gun safe? When I catch the devil from my wife as to which dogs get left behind, complain loudly about the fact that their spot in the truck got taken by a kennel mate. I'm sure scenes like this are repeated all over the country by our members, could it get any better?

One of the things that always surprises me is how hard it is to get other hunters involved in NAHRA. I'm sure many of you share the same frustration. I know they see the difference a trained dog makes, so why won't they spend some time working with their dogs? Of those that I have convinced to come out and train, we have had a few become NAHRA members that have hung with it. We need more of them; we need them for the ducks and for NAHRA. We all know the fate of so many birds that are crippled down by hunters that don't have well trained dogs. Rarely do they ever see those birds again, and sadly many will keep on shooting. We don't have the resource luxury for it to continue. I'm not sure what it takes to get more of them onboard, but I do know that a big plus are clubs or individual mentors that can help bring them along, particularly early on.

I'd like to get everyone up to date on a few things. As many of you know, Jeff Smith is going through some difficult times. His complex situation and concern for the program has led him to offer his resignation to the Board of Directors. The Board has accepted Jeff's resignation and consistent with NAHRA's By-Laws, I will be serving as President until elections are completed. These elections as directed by our By-Laws will be to elect the Executive Board members who serve as the officers of the Corporation. These elections will be completed by 1 January.

Your Board of Directors is committed to making NAHRA a place that you will want to recruit your friends into. I think it's key that we communicate to you what we are doing and that you communicate back to us your priorities. At present we are getting the new website and newsletter together. We will need your help to get the website content rich. Share your experience, your brags, and your pictures. For the present this electronic media will have to serve as we are not in a position to afford print. I'm not sure what membership number allows us to do that efficiently, but it's more than we have today. We will continue to review our options in this area.

The 2006 budget is coming together. This is a key milestone for NAHRA. Kevin McLaren is doing a great job trimming expenses and improving efficiency. Our first priority has to be the preservation of NAHRA and all the dogs' data. This budget will recognize that fact. We will show you what it takes to keep the paper flowing and your dogs' titles processed. Those things we would like to have will be budgeted separately from the must have. Once we have a good handle on what that leaves us, we can begin addressing priorities.

Please let me know if I can help resolve any questions you have. Likewise, don't forget to keep your Regional Director in the loop; they are a valuable resource both to NAHRA and your region. This new structure is experiencing growing pains but in almost all aspects, it's positive as far as getting your views in front of the Board.

While there are not as many members as I'd like, there are still enough to make communications difficult. If you need me, my contact details are on the website. Please give me some time to respond but don't be shy about following up or asking Rosemary to chase me down.

All the best, be safe and scratch your best friends ears for me.

Jim

The Field Test Secretary

By Phil Bollenbacher

I have just completed my fourth term as a NAHRA Field Test Secretary. I have been a member of our national organization since the mid 80's. (Did you notice we all seem to reference ourselves by some moment of membership to add credence to our profundity).

I have an abundance of profundity but even more; I have a great deal of perseverance. Perseverance in cutting papers into smaller papers, reading writing that is in some form of WWII code, detaching papers that have the word "detach" typed on them and guessing many of the names given to dog, by man.

I have notices over these many years that field test secretaries have an organizational life span similar to urban school superintendents, two to four years are tops. HUM!

Persevered? I have persevered through one test application that had all the information stretched out over the two applications usually seen in the premium mailed to us. The information was written straight across the page going from one form to the next, two forms, one application, no the person was really telling me they wanted to enter both tests. Perseverant? Guess who had to rewrite both applications? You say send it back? That is difficult if you want, and you really do want, the fellow dog person to appear with old "1100" and his two new Golden pups, "Imodium" and "You cheated, you lied." If you send it back, the person may not show up at all, so you take a breath and "fix it."

I got to thinking, that maybe if a little light is shed on the field test secretary process, more of our members would help with the application process and thus lengthen the life expectancy of our field test secretaries around the USA and Canada.

First, the NAHRA application historically comes to us with two applications on ONE page. If you are entering two tests and you fill in both applications, and DO NOT CUT the two applications apart, someone must do that for you. Who? You guessed it, the friendly volunteer, unpaid, test secretary. Cutting applications apart may be **day one** of the test secretary process.

Second, did you know that ALL test applications are sent to NAHRA, pass or fail, signed by the judges? They are presented as application piles, by test and sorted in running order. If all the applications are a different size, and there are probably four different versions of the NAHRA application roaming the country not counting the computer "zoomed" versions, the stacks become un-stackable. Thus, a test secretary can spend the **second day** of the application process cutting applications into a more conforming pile of paper. That's the same day people start calling the secretary for their dog's running order because they failed to send in the suggested running order return postcard.

New Memberships

Introductory, Individual: \$25
 Introductory, Family: \$30
This rate is for first-time members only and is available only for the first year of membership. Renewal will be at NAHRA's current membership rates.

Youth Membership: \$15
To use the financial benefit on young adults participating in NAHRA, a reduced membership fee is available for those 21 years or under. Young handlers will be eligible for this rate until they no longer meet the age criteria.

If you are going to a test held by a club having a Saturday dinner and the club has an application for their famous “pig roast”, cut out that application into the size suggested. In other words, if the application says “detach” meaning cut the paper in half, ‘cause the directions to the test are on the bottom of the same page, do not send the whole page back. Cut off and keep the directions to the test. Send in only the top half. Again this is a paper-stacking problem for the test secretary, but even more important, you may have just sent in your money and applications to a test you may never find! On Friday night when you are calling the secretary for directions, he/she will not be home. He will be at the judge’s dinner up near the test site. I had a call one Friday night at 11:30 from a friend, calling on a cell phone somewhere in New York’s Catskill Mountains looking for a test. My club was not putting the test on, but I was the person’s last hope of finding the next day’s test. No, she had not made motel reservations either which would have gotten her at least in the vicinity of the test site.

Late applications. To paraphrase a famous line from one of my favorite movies, The Three Amigos: “Late applications, we don’t need no stinking late applications.”

NAHRA rules speak to the fact that we shall have a deadline and a draw to determine a running order following that deadline. Once that deadline has passed, we as field test secretaries are not to accept a late application. Picture your friendly, aim to please, unpaid, volunteer test secretary sitting at home with one hundred and sixty, on time, applications with you calling or better yet, you have your club president call to ask if we can fit in old “1100”. Picture a person sitting at a table with a pile of checks, a pile of pig roast applications, and six piles of applications for Started A & B, Intermediate A & B, and Senior A & B tests. Picture a person with those test applications already placed in running order and you call to get your dog into a test we all know you have know about since early spring. Now, you would like to cash in your, “I am your best friend coupon” and have the rules ignored so your dog can run a test three days from now and two days after the catalog has been printed?

One last thought about late applications, if the deadline for the test was the 28th and you sent it on the 29th of the month, there is a very very good chance it will not arrive in time. And our postal service will have canceled the stamp on the day they received the envelope removing all doubt about when you sent in the application, don’t you know?

So, in order to keep a field test secretary working and working *for free* for you, please and I really do mean please:

- Send your application in on time.
- If you want to know your running order, send in a postcard.
- Detach and cut to size your dinner application aka “the pig roast” paper.
- If you have a creative name for your dog, write nice, print nice, or type it in.
- Indicate on all applications what test you are entering, Senior A, B I, or II.

- If you are entering two tests, send in two separate, complete, applications.
- When sending in two applications, cut them apart and trim them a bit. Do not send two applications on one page. Someone will need to cut them apart so they may be sent into NAHRA.
- Add up your entry fee more than once (Modern Math was a really great idea, but greater than or less than does not work here!). Make sure you are sending in the correct amount. Please!
- Type your applications. Or as my Mom use to tell me, “Write so someone else can read it!”
- And better yet, use the test application from the web site titled, Field Test Entry - Editable (pdf) This field test entry is editable and printable. So you can type your application (yes, type) it and then print it on your computer. It will not save but you can print a copy and at later dates fill in the club/test/date information at the top of the application for your future field tests. This will help the test secretary a great great deal.

*May you train your dogs all day and be with
friend and family all night.
May your dogs always love you and
your spouse always tolerate you.
May you be safe to and from our
Field Tests, And
May you be “ribboned and banded”
at the end of the day.*

See you in the swamp!

Special Note of Thanks and Dedication

As Co-Editor of the inaugural issue of the E-NAHRA NewsLetter, I would like to express my gratitude and to dedicate this issue to Doug Kelley, his wife Sara and two young children. Doug is a newer NAHRA member from Cedar Rapids, IA in the Midwest Region, who volunteered his expertise and much of his family time in the past five weeks during the Holidays to help design, create and publish this newsletter under a very tight timeline.

Some of you may recognize his name and/or work, as the Editor and Webmaster for the Eastern Iowa Hunting Retriever Association’s (EIHRA) Newsletter and Website, respectively. (Thank you Keith for referring him!) Alongside the newsletter, Doug has been working on NAHRA’s new website, which will launch in the first quarter of 2006. More details will be made available as the site nears the launch date.

If, after reading the NewsLetter, you find yourself with a minute or two, please take that time to thank him for his efforts as well. Sincerest thanks Doug, as the saying goes, “I could not have done this without you!”

Respectfully submitted,
Sandy Zandlo
Midwest Regional Director & Co-Editor

The Upland Hunting Test

By Brad Lindberg & Keith Stroyan

How should the Upland Test be run? How do we judge it? When and how should the flushed bird be released? Should we even do it? Following are ideas from discussions in person, from the NAHRA website, and our personal experience. We're interested in learning all we can to make this test fulfill its role in the NAHRA program.

The rule book says, "NAHRA's purpose ... is to discover and reward dogs that can fulfill the hunter's needs in the field by performing in a manner consistent with the demands of actual hunting conditions." In North America, retrievers are used extensively to find and retrieve all sorts of upland birds. Our favorite is pheasants, where retrievers excel over other breeds, but retrievers hunt various species of quail in the southwest or southeast, Huns on the Canadian prairies, Chucker in the northwest, ruffed grouse in the northeast and so on. A NAHRA Upland Test could legitimately simulate any of these given the right conditions. Should we do it? Absolutely - upland hunting is a major job of the North American retrievers we seek to "discover and reward."

First lets look at the set up. In much of the country we are hunting pheasants so we must think about setting up a test in an area where we will find them. Think as a pheasant hunter and look for the kind of cover where you will find birds. In our experience that can be anything from standing corn to cut corn, the drainage areas in between the fields, 4 feet high golden rod to 4 inch clover, swamps and cattails to thorn apple groves. Getting the idea? If you can name it, they might be there depending on your area. Now add all of the other game birds we hunt with our retrievers and their respective haunts. There is no single type of cover when you are really hunting - you have to use the birdy cover on *your* test grounds. All this being said, a good generic answer is found in the guidelines of the rule book, "... (a) field with knee-high cover with intermittent bushes or swales approximately 60 yards by 100 yards in size works well but the field and cover should fit the game to be hunted ..." We recommend that you re-read the Upland Guidelines along with this article.

Now we must relate the real hunt to the field test while trying to come up with some format that will be fair and consistent around the NAHRA world. We like to hold the upland test in an area that will challenge the handler/dog team with a combination of teamwork between dog and handler and natural canine bird-seeking sense. The team does not have to be able to see each other all of the time. Teamwork goes both ways. The handler must maintain control and keep his dog in gun

range and the dog must check in on the handler so that he maintains that bond that makes them a team, not two separate entities charging down through a field for the "sit-to-flush." A charge to the flush with no hunt is a failure whether or not the dog is steady.

figure 1: The ideal "Sit-to-flush" test

As judges we need to be able to see the team as they work, not every step on the way, but most of the time. Use a large area. Every dog we have ever owned and hunted with never really got into the hunting groove until we had been out in the field for several minutes. You need to use an area where you can get 10 minutes minimum hunting time. The upland test should be afforded as much time as any other test during the evaluation of the Senior or Intermediate dog. You can use some planted dead birds, but avoid too many producing an "Easter Egg" hunt. This breaks up the dogs' hunts too much and doesn't let them show their stuff.

We have usually set the flush at the end of the test. It never occurred to us to put the flush near the beginning until reading a discussion of the upland test on the NAHRA website. A very valid position was presented for having the flush early in the test and then continuing with the hunt. Lets face it, this is the way it works when you are hunting and actually find birds. When and

where you have the flush in the senior test is up to you. What is important is that the flush is as realistic as can be presented in a testing environment. The rule book guidelines have good advice – re-read them. Keep in mind that each dog should get a flush closely resembling all of the other dogs' flushes. Unusual or unfair flushes should be thrown out and the dogs re-run (move the location of the flush for these dogs).

Most of the time we use a box launcher release for the flush although on several occasions we have used a hand thrown bird or even one thrown from a strong arm or winger. There has been some discussion lately about using planted, free flying birds. This can work, but depends very much on the quality of your birds, your cover, and the experience of your help. You may get a runner and a hot dog that will flush out of gun range (would that be an unfair evaluation of that dog?). Your help could over-dizzy the birds resulting in dogs catching them on the nest. Your help could under-dizzy them resulting in birds flying off far-far ahead of the dog. These lost birds are ringing up expenses for the club and frustration for dog and handler. In any case the bird must get up strongly and get away from the dog safely. No dog should ever have to endure a bird that falls in its face or within 10 yards of it for that matter. A fly away is OK where local laws or logistics do not allow for a shot bird, in fact, they often work quite well. Make sure that your gunners understand that safety is of the utmost importance. No bird ever needs to be shot if an unsafe situation may occur. We only need a shot that represents when one should be fired at the fleeing bird. The rules only require an un-scored retrieve if the bird is shot and the fall is within reason. (A bird that finally falls 300 yards out across a swamp is not "within reason" for the test).

Now that we have presented the flush lets think about how we get there with a dog, handler, two judges, and two gunners. We could use the handler and two gunners if the judges have a well chosen observation point. This is our hunting party and should appear that way to the team, especially the dog. Ideally, a dog will hunt for the whole party, going quite far left and right, but we don't score a dog down who hunts vigorously but primarily for his handler.

We like the gunners to walk with the dog and handler – at least most of the course. Many of our senior dogs get very trial wise to two gunners standing down in the distance. They know where and what is going to happen. They either run to the spot or walk at heal depending on their experience with the flush. We have NOT seen the "blocking scenario" work well in tests. We have even seen dogs sit and refuse to move as they approached the guns. For this reason we will always have the hunting party, all of it, moving with dog and handler to the flush.

Run the test as if you were hunting. Follow safe hunting and gun handling practices. Stay in line with your party as you hunt and let the handler set the pace (within reason, he can't run to keep up with his dog). Keep track of the dog. Flush the bird when, in your experience as a hunter, you would expect a flush but NOT too close to a powerful mechanical launcher. Some dogs will charge the launcher. Make sure that you can see the dog as it gets within flushing distance. In our experience, a flush a few yards away from these launchers gives the dog a better look at the bird. Remember that the test is the upland hunt not just the flush. Steadiness at the flush is only one facet of the jewel we create with the title MHR.

By thinking about the best upland bird hunt you can remember and relating that hunt to the judging situation you can have a very effective upland field test that will evaluate the retriever as an upland hunting dog. There is no substitute for experience, but an MHR should be ready to profit from upland experience anywhere on the continent.

FROM THE KITCHEN

Submitted by Bruce Caplin

This is one of my favorite fall dishes. The recipe serves 10-12 people. It can be served cold, as is the tradition in the Basque region of Spain or hot. Although there are a lot of ingredients, the recipe is basically a one dish wonder. Perfect for large get togethers. PS: it tastes even better the day after it's prepared:

wine note: Try this dish w/ an inexpensive "green wine" from portugal. They're called Vinho Verde and run about \$5-8 a bottle and go great w/ this dish.

PHEASANT MIRABELLA

Ingredients: 4 pheasant, 2 ½ lbs. each, quartered (or about 10-12 breasts) 1 head of garlic, peeled and finely puréed ¼ cup red wine vinegar ½ cup extra virgin olive oil 1 cup dried prunes, pitted 1 cup dried apricots, pitted ½ cup pitted Spanish green olives ½ cup capers with a little bit of juice 6 bay leaves 1 cup brown sugar 1 cup white wine ¼ cup Italian parsley finely chopped

Method: 24 hours before: In a large bowl combine pheasant quarters, garlic, oregano, pepper and coarse salt to taste, vinegar, olive oil, prunes, apricots, olives, capers and juice, and bay leaves. Cover and let marinate, refrigerated, overnight.

Preheat oven to 350. Arrange pheasant in a single layer in one or two large, shallow baking pans and spoon marinade over it evenly. Sprinkle pheasant pieces with brown sugar and pour white wine around them. Bake for 1 - 1½ hours, basting frequently with pan juices. Pheasant is done when very tender and juices run clear.

With a slotted spoon transfer pheasant, prunes, apricots, olives and capers to a serving platter. Moisten with a few spoons of pan juices and sprinkle generously with parsley. Pass remaining pan juices in a sauceboat.

To serve Pheasant Mirabella cold: Cool to room temperature in pan it was cooked in before transferring to a serving platter. If pheasant has been covered and refrigerated, allow it to return to room temperature before serving. Spoon some of the reserved juice over pheasant. Serves 10 to 12

Kids ONLY Field Test

Hosted by the Treasure Valley HRC

by Debbie Ellis

Judges Rick Stone and John Ellis with the successful handlers.

The Treasure Valley Hunting Retriever Club in South Central Idaho hosted their first annual Field Test for kids only. The oldest competitor was 16 and he was by no means the most experienced. That title went to a handler with the ripe old age of 7, who has been handling dogs for 2 years. The average age of the competitors was 7-1/2, with the youngest being 4. Not to mention the average dog out-weighted its handler by at least 20 pounds.

Jamie and Sadie

The test was a real modified Started test. It consisted of one land mark, one water mark and one Judges choice, which in this test was another land mark. All land marks were 50 yards and the water mark was about 30 yards. These marks were shortened just a little for the puppy.

Kevin

One thing about it, when these kids are old enough to go hunting they will have absolutely no problem retrieving their birds. These are the hunters/handlers and North American Hunting Retriever Association (NAHRA) rep's of tomorrow. Who knows there may even be a Mike Lardy amongst them. It would benefit all of us to take special notice and help mold these kids. They are our futures.

Justin and Rosco

On a personal note, I would like to mention that three of the handlers were working with Golden Retrievers. OK, so I am a little biased. But this is my chance to promote my kid, NAHRA and my favorite dog breed.

Katie and Annie

I would also like to point out these kids were not using push button dogs. With the exception of the puppy and one retired dog, all these dogs are competing at the Started and Intermediate levels. For you “dyed in the wool” AKC’ers, that is the Junior and Senior levels.

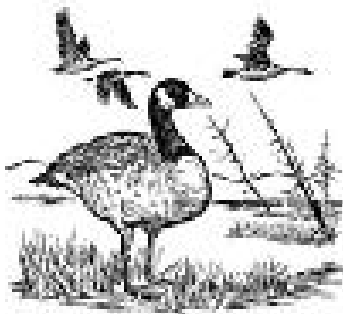

Alexandrya, Grandma Catherine, and Maggie

There were only 6 entries this year, but the TVHRC is going to make this an annual event. Hopefully the word will get out. If each one of this years handlers brings one friend next year and so on, we will be setting a wonderful precedence for other clubs to follow.

Jason and Chomper

This Field Test was in June and since then one dog and one handler have moved up to compete at the Started level. And compete successfully, too.

FROM THE REGIONS

From the Northeast

I hope this finds you well and with a packed freezer. Our hunting seasons here in the Northeast are in mid-season or ending depending upon your Latitude. I hope all handlers wherever you hail from are as proud of your NAHRA dogs as I am. With every hunt I see the fruit of our program and think about where I might be if I was not bitten by the NAHRA "bug" over a decade ago.

NAHRA in the Northeast underwent some changes this year. Some unfortunate circumstances cause the cancellation of some events but overall, I believe we had a productive year. While several less events were held this year, the participation in NAHRA field tests were generally up in 2005. My feeling is that we were just getting some traction to continue our climb back.

Eight of the nine current NE clubs held eleven field test events and two judges clinics starting at Lake Champlain Retriever Club in February. Eight of the tests were double staked field tests including two at Northern Piedmont Retriever Club (PA), Hudson Highlands Hunting Retriever Association (NY), Navesink River Hunting Retriever Association (NJ), Western New York Retriever Club, Leatherstocking Hunting Retriever Association (NY), Horseshoe Hunting Retriever Club (Ontario) and Southwestern PA Hunting Retriever Club.

In addition to their normal June field test, Leatherstocking Hunting Retriever Association hosted the Northeast Regional for the third consecutive year. Many thanks to Vicky and Mike Hass, Gene and Cindy Taille, Dave Combs, Tom Rourke and the rest of the club for their hard work to make this event successful.

Furthermore, a thank you to the Regional Awards Committee consisting of Tom Rourke, Denise Murchison and Robin Brennan for coming up with some great ideas to make this Regional just a little more special. A great certificate, NE Regional Patch and photos of the qualifiers were offered to all eligible handlers and dogs attending. To Ted Givens, Rollie DeVore and Andy Mikolaiczky thanks for keeping us within the budget!

Sandwiched within our NE schedule was the NAHRA Benefit event. The event was run jointly by members of the Mid Atlantic and Northeast Regions and held at the end of April at Linden Farm in Virginia to raise funds for a variety of organizational needs.

Northeast members showed up in numbers to support the event, either singly or in groups. Navesink and Northern Piedmont Clubs manned several of the stakes throughout the weekend along with members of the newly formed Old Dominion Club. There were also individuals from other clubs too numerous to name who also provided valuable assistance. We even had members of the Four Points Retriever Club, Sandy Zandlo and Jerry Cluckey, come out to run and pitch in to help out.

And of course, there were clubs who provided judges as well as raffle items and cash to sponsor the event. This was really a group effort that I will not soon forget. It was truly a pleasure to work with all of the committee members and I can personally attest to the hard work they put in to make this a very successful event. I have never been associated with an event where I have had to turn down help as many times as I did that weekend! It seemed like people were standing in line to help. That alone provided evidence to me that NAHRA has turned the corner and is back on track.

Even though the testing and for the most part, the hunting seasons have ended, we train on or at least think about it and the year to come which will hold new challenges and accomplishments. NAHRA people all over the Northeast will continue to steal a little training time or at least think about getting started. I am sure Ken Bora in Vermont will take some time from tapping maple trees to work those Chessies, Mike Hass will set aside a Saturday or two and hit a plowed parking lot in the Finger Lakes to run his Labs on a few drills and Laurie Clark and her girls will find the time to pitch a few goose wings for their Golden Retrievers in some Erie County snow drift. Hey, you can't spend the entire winter in the cabin!

I mentioned earlier that the NE is currently composed of 9 clubs. I am pleased to report that the number will grow to 11 clubs with the formation of the Nutmeg Retriever Association in the Connecticut area mostly due to the efforts of Bruce Caplin. In addition, the Ohio Hunting Retriever Association has reformed thanks to the efforts of Tom Perkins and a handful of friends. Both clubs anticipate holding events in 2006. Welcome to both clubs!

I will leave you all with the following thoughts. While many of you became frustrated with the lack of communication in 2005, the Board of Directors is working to correct that problem which I hope will be obvious by the time you read this or shortly thereafter. In any case, it was not intentional; it was just a circumstance of our growing pains being an entirely voluntary board. Personalities and changes in people's lives can have a profound affect on the functioning of a group like this. And it's not a big problem provided the problems get worked out as I believe they have. I am sure there are some other bumps in the road ahead of us and I promise on my part to do the best job I can to keep it between the ditches!

Now go have a wonderful Christmas and great New NAHRA Year!

Frank Plewa,
Northeast Regional Director

FROM THE REGIONS

From the Northwest

As I am on a plane returning from a judging assignment with the Mountain and Prairie HRA at Fort Lupton, Colorado, I am reflecting on the weekend. MPHRA is a club on the rebound and they reminded me what NAHRA is all about. It is about good dogs and good people; people cheering on their colleagues at the line; handlers jumping in to help out to keep a test going; dedicated people trying to keep NAHRA going in their region, and mosquitoes and triple degree weather (oh, scratch that last one!)

I seem to be fielding many complaints these days regarding test set-ups and judging. It is by far the most frequent complaint I receive and I was even a bit surprised to get similar feedback from people outside of our region who have attended events in our region this year. We should always keep in mind what NAHRA is supposed to be about: *“NAHRA's purpose ... is to discover and reward dogs that can fulfill the hunter's needs in the field by performing in a manner consistent with the demands of actual hunting conditions. The purpose is not to confront the dog with trick problems, but rather to test the dog's natural ability and acquired training. NAHRA Field Tests utilize duck blinds, numerous decoys, boats, calls and other hunting implements in a manner simulating normal hunting. Under the NAHRA concept, the objective is to recover the bird as quickly and efficiently as possible, to create the least amount of disturbance in the marsh and upland and to give the hunter the maximum amount of time to actually take game.”* (General Procedures, Regulations and Field Procedures and Judging Guidelines For NAHRA Hunting Retriever Field Tests). It feels like we are moving away from the intent of NAHRA and the standard that we defend as the “best one out there for the hunting dog...” I feel that we need to get back on track and get back to the basics of NAHRA.

We are all very passionate about our dogs and how they run, as well as the NAHRA program, so sometimes we may forget our manners, but we must still respect each other and treat each other with dignity, even when we disagree. And we must work together to make our region strong and fun again. We should strive to help all within the region and make our region a seamless one with no barriers or borders. Our biggest challenge is the distance between all of the clubs, but we must work to bridge the distance and support each other. I feel it is not enough to focus on the strong clubs; we must support and help the smaller clubs develop into stronger clubs, as well. What can we do to accomplish this?

We have some exciting news: Pete Test, of Helena, Montana is starting a new NAHRA club in his area. We are hopeful that Helena is a good location and will draw lots of new members to NAHRA and we are looking forward to helping these new members develop into great handlers with great dogs! This will be our second club in Montana in the last 3 years. Stay tuned for an update on this new club – it is unclear if they will have a test in 2006! Good luck, Pete!

Also, the 2005 NW Regional Test, held in June at Wasa Lake, British Columbia, was a financial success. This year we decided to try a no-host test which meant that there was no host club and the event was funded completely by the regional fund. It appears that we will net at least \$2,000.00 from this event. Good job, Regional Committee and especially Ned Cooper for finding those gorgeous grounds and being the FT Chairman. Thank you all who donated items for the raffle and silent auction – it was the difference between losing or making money for the weekend. I think we all learned a lot from this event and we have a better idea how to improve our next event. Next year's regional date have been proposed (see schedule) and we are looking at using some new grounds in Ronan, MT. The timing of the event will be very important as the RAW Invitational will be held in mid-May in 2006 and we want to ensure good participation at the regional event, which may be held 4-6 weeks after the RAW. We have a strong group of senior dogs in the NW Region and it would be great to see good participation in the RAW and at our Regional Test! Stay tuned for more information on both and plan to attend! The RAW Invitational is an event you will remember for years to come and you will make new friends from all over the country.

We have a lot to be proud of in the NW-we currently have 7 clubs –2 in Canada and 5 in the US- that span Alberta, Idaho, Montana, Oregon, and Washington. We hosted (or will host) 10 weekends of tests (three of them triples) spanning from late April to late August and we saw lots of training days hosted by our clubs. Also, Wild Rose and Alberta Clipper are hosting BACK-to-BACK Triple tests in July! That is 23 opportunities to put titles on your dogs in one calendar year! How great is that? We are very lucky to have this opportunity in our region!

Continued on next page...

2006 **PROPOSED** Northwest NAHRA Test Schedule

April 22-23	REGIONAL - Potential Regional Date
April 29-30	SBDA
May 6-7	REGIONAL - Potential Regional Date
May 13-17	RAW in Colorado
Jun 3-4	SBDA
Jun 10-11	REGIONAL - Potential Regional Date-may conflict with Missoula AKC test
Jun 24-25	BSHRC
Jul 1-2	Fourth of July Weekend
Jul 7-9	PSRC TRIPLE
Jul 15-17	WRHRC TRIPLE
Jul 21-23	ACHRA TRIPLE
Jul 29-30	REGIONAL - Potential Regional Date
Aug 5-6	TVHRC
Aug 12-13	WRHRC
Aug 26-27	SBDA

* (TVHRC may also add a spring test)

Wow, what a schedule, Northwest Region! What an incredible schedule! I think with the frequency of our tests, we are experiencing more difficulty in supporting each other because it is no longer necessary to travel the longer distances to get titles and points. Any ideas on how to rectify this situation, besides canceling tests! If we follow this schedule, we will have 25 opportunities to run tests!!

I am currently working with Billy Jewett on the proposal to have a regionally-hosted and regionally-funded test in Ronan, MT. I have highlighted the potential dates in red. Having the RAW return next year is a great thing, but it kind of presents some challenges within our region as far as test dates for the regional and people willing to travel to more tests within the region. I hope clubs understand that some of our members have been waiting for the return of the RAW for several years and will be taking a week's vacation in order to attend and taking a week to run the RAW may affect some handler's ability to run other tests within the region.

We also look forward to hosting judging and handler clinics in 2006. Please contact me if you would like to schedule a clinic in conjunction with one of your tests and we will see if we can make it happen. It may be possible to have the regional fund sponsor the judging or handler clinic on a Friday and combine it with a licensed test the rest of the weekend to draw even more participants from your local area and beyond.

We'd like to thank all the handlers that are traveling to our region from across the country to run our events. We do feel we have some great trial grounds and some great clubs to host y'all. Thanks for spending your vacation time with us! Come back soon!

Laura Kinney
Northwest Regional Director

FROM THE REGIONS

From the MidAtlantic

All of my life I have been a hunter. Since I was big enough to carry a single shot 20 gauge chasing after squirrels, rabbits, grouse, and woodcock all over the hills of western PA, I have been a hunter. I also have had a love affair with dogs. First it was beagles, then coonhounds, and starting 21 years ago, labs. Four months after my wife and I were married, we purchased a black lab female puppy which was sired by the “best hunting dog” I had ever seen. Kenya was the name we gave to the pup. Kenya was a blessing to my wife and me. We were living in South Georgia, hours from our families and anything that was familiar to us. I traveled extensively in my job and Wendy was left alone for sometimes weeks at a time. Alone that was, except for Kenya. Kenya went to work with me almost everyday, riding in the truck, always happy to be there. She was not the very best hunting dog, but if I shot at it and happened to knock it down, she would go find it and bring it to me. She was not steady, nor the best marker, but she was my hunting dog. She was content to be with either Wendy or me. Genetically she was not from sound stock, and was diagnosed with severe hip dysplasia at 3 years of age. Her dysplasia was a terrible condition that we all dealt with for 8 more years. When she died, it took us 6 months to get another pup. I made 2 decisions right then, that I would do everything I could to ensure that we would never have another dog with that condition, and that we would never have just one lab.

This is where Sadie enters the picture. Or I should say “tears” into the picture. We purchased Sadie from a reputable breeder. We had done our research this time and the parents had all of their health clearances as well as being “Hunt Test Titled.” We went to the kennel, looked at the prospective matings, and decided on putting a deposit for a black female from a particular bitch that caught our eye. When we were leaving the breeder gave us a copy of the NAHRA NEWS and some propaganda about NAHRA. I must have read that stuff around 500 times before it was time to go pick up our pup.

We brought home this 7-week-old pup, expecting her to have the same mild mannered temperament that our previous lab pup had. WRONG. Sadie was field bred and had lots of let’s say “energy.” After the first three days, we were pretty convinced that she was “demon possessed.” After about two months, it was obvious we needed to get some help, and fast. There was an ad in that old NAHRA NEWS that I had been given for Deep Run Farm so I contacted them about getting some help in training this demon dog. Jack Jagoda and Phyllis Giroux graciously offered to help me in this venture. For the next two years, I traveled almost every week to Goldvein to train. During that time, I was involved in helping out at NAHRA tests throughout the region, and running Sadie. I managed, through mostly Sadie’s raw talent, to achieve her WR quickly. Unfortunately, my inexperience coupled with Sadie’s over-enthusiasm, instilled some very bad habits. She doesn’t like to sit for three birds, in Sadie that kept her from achieving higher titles. However this time allowed me to see what a trained retriever is capable of achieving and how much of an asset that can be to the hunter.

Since that time I have trained several dogs to the MHR level or higher. In addition, I have run dogs in the AKC and HRC hunt test programs. I am still impressed each and every time I go to the field with one of my dogs. NAHRA has made my dogs superior hunting companions as well as outstanding conservation tools. In my opinion, none of the other programs develop the full potential of a hunting retriever, as does the NAHRA program.

Several years ago, I had the opportunity to go to South Dakota on a combination waterfowl and upland hunt. During the course of one day, my hunting partner, GMHR Morning Sun Zena, retrieved geese in the morning, flushed pheasants and huns in the midday and retrieved ducks in the afternoon. During the course of that day, she waited to be sent, did numerous blind retrieves, picked up several cripples by trailing, and efficiently hunted ditches, cattails and the prairie for birds. On another hunt, a cripple goose exited the body of water we were hunting over 200 yards away, leaving the water for the safety of some thick brush a short distance away. I sent Zena on a blind retrieve to the spot the goose got out of the water and then I instructed her to “find it.” Her nose hit the ground and she was off, disappearing into the brush. To the amazement of my hunting partners that day, she appeared from the brush with one very upset goose approximately 5 minutes later.

I am sure this next statement will stimulate debate, however, if Zena and I had only been exposed to the AKC or HRC testing programs, chances are Zena would not have been capable of performing at this level. Zena and hundreds of other dogs are reaching their fullest potential as hunting companions/conservation tools every day because of NAHRA. In my opinion, we are very fortunate to have a program such as NAHRA to enable us to develop our retrievers.

I am a member of the North American Hunting Retriever Association because it is the most complete, comprehensive Hunt Test Program in existence. There has been a lot of politics and other nonsense in the organization the last couple years. This is an organization about and for dogs, and our interaction with them. The past is gone; we have the opportunity to introduce NAHRA to thousands of others, both human and canine.

I encourage you to look forward. If you have never been involved in NAHRA or a NAHRA club, please get involved. If you have been involved in the past, but are not currently, please reconsider. Join today, we need your support.

Kevin McLaren
Mid Atlantic Regional Director

FROM THE REGIONS

From the Midwest

When reflecting on 2005 in the Midwest region, many thoughts, events and happenings come to mind. None more sobering than life and its' fragility, as long-time NAHRA member, Roger McCay suffered a stroke in mid-April and resigned as Midwest Region Director shortly thereafter. The Midwest Retriever Club which Roger helped form, carried on with the task of hosting a two-day event in early May, under Rogers' watchful eye in the gallery.

The Okoboji Retriever Club located in Milford, IA joined the Midwest region in 2005. Their initial start began with a seminar by Roger McCay in late 2004, and the group was guided through their first 2-day event by members of the Four Points RC. All who attended enjoyed the event and new location in the upper northwest corner of Iowa. ORC will be back in 2006 with a possible "quad" of Started and Intermediate tests in one weekend.

Skunk River HRA in Washington, IA hosted two 2-day events, plus the Midwest Regional at Crooked Creek Shooting Preserve and promises to be back for the "region kick-off" event in April 2006. Four Points RC hosted a 2-day and a 3-day event in 2005. The first double event held at Rice Creek Hunting & Recreation in Little Falls, MN was well attended for an event at the end of a very warm July. Then a triple event followed two weeks later in Warroad, MN where attendees were once again delighted with the "shore style fresh walleye" dinner hosted by Conway Marvin and Streiff Sporting Goods. (The recipe is a family tradition and secret – still can't get it from them!) FPRC plans to hold three 2-day events in 2006.

Not only did August produce very warm temperatures, but it also marked the return to NAHRA of the Eastern Iowa Hunting Retriever Association. It was a joy to welcome new and former NAHRA members, some local hunters and a "new" test site location/hunting preserve (aka Pheasants & More) in Belle Plaine, IA. EIHR is planning a 'cooler' event date in September 2006.

To wrap up the Midwest Region season in mid-September, a group of members from the Midwest Retriever Club hosted a 2-day event at the Chichaqua Greenbelt Bottoms Area in Elkhart, IA. Some of you may recognize the location name, as it was the site for the 2001 R.A.W. Invitational. The event was well attended and efficiently run, even though some hunting seasons had already begun. On a sad note, this was to be the last event hosted by this club, however, the members advised that they will be looking into the possibility of forming a new club in the first quarter of 2006. We look forward to it!!

In the meantime, the region has been creating challenges, across the regions and within the region. An innovative "Regional Challenge" was suggested by Kirk Rice, attempting to entice other regions to come forward either with communication, involvement, awareness or all of them combined on the 2006 R.A.W. Invitational and its' request to raise funds. The challenge was posted on the website – with many readers, but no takers. The second challenge was proposed by Bruce Mountain to all Midwest Region members to become a NAHRA Sponsor Member. For the first ten (10) Midwest Region members who became a \$200 Sponsor Member by December 31, 2005, Bruce would donate an additional \$50 to NAHRA per 'new' Sponsor member. Bruce had an enticing quote "We all know that NAHRA has the best program for the all around hunting retriever. Let's put our money where our whistle is!" And with that, the Midwest region has produced seven (7) new Sponsor memberships! Only three (3) more to go and the deadline is fast approaching!! Thank you to each of the new Sponsor members and to you Bruce, for stoking the fire!

The Midwest Field Test season generally runs from late April (when the ice goes out) to mid-September (when hunting seasons have already started), and a number of the Region clubs are "closed" to club business during the hunting seasons. Therefore, the MW schedule below is conservative at this writing.

2 ST 2 INT 2 SR

The process of a new democratic system and “working” Board for the NAHRA organization has created a few ‘learning curves and growing pains’ for all of us. While there are several issues to work on, fiscal responsibility and communication are the two most critical commitments to our members. I would like to thank the many Region members who have offered ideas for improvement or change and to all for remaining patient and steadfast.

Once again, the holiday season is upon us. As you set out to enjoy the merriment of family and friends, travel safely on your way. Most importantly, be certain to share some special time with your “best” hunting partner, as they will always be there for you, no matter what time you have to give them!

Cordially,
Sandy Zandlo
Midwest Region Director

TITLES

Please note that the titles in this Newsletter reflect those that have been issued from the NAHRA office within a specified timeframe, not those that have been earned during the period.
